

Why the LR175?

- 1 - The 175 is the ONLY 48" wide closed cabin high dump litter vacuum manufactured in North America. Everything is built according to North American standards;
- 2 - In the category 1.5 to 2 cu. yd. hopper capacity the 175 is the lowest priced litter vacuum on the market;
- 3 - OEM spare parts will arrive quicker and cost less;
- 4 - It's 10 to 12 lifespan will outlast most competitive models;
- 5 - MADVAC has a 30+ years track record of success - when your machine is due for replacement we'll still be around;
- 6 - The 175 is a fully street legal unit - safe, easy to use;
- 7 - A CDL permit is not required to operate this machine;
- 8 - For maintenance, the 175 offers unprecedented easy access to all critical components of the machine (electrical box, manifolds, spool valves);
- 9 - The 175 can be purchased using Sourcewell (formerly NJPA) HGAC, or other local cooperative purchasing contracts - save additional money, get your machine quicker;
- 10 - Any customer who buys the 175 without having seen a demo is eligible for our unique **10-day trial purchase offer:**
Once the machine is delivered and training provided, in the 10 days that follow if the LR175 does not meet your performance expectations we'll cancel your PO and take back the machine;

Very few companies (if any) offer a similar buying program.

- * we are confident in our product
- * want all LR175 customers happy with their purchase
- * believe 10 days to validate a machine is better than a quick 1-hour demo
